## Changes by default author

You think water moves fast? **You should see ice.** It moves like it has a mind. Like it knows it killed the world once and got a taste for murder. **After the avalanche, it took us a week to climb out.** Now, I don't know exactly **when** we turned on each other, but I know that seven of us survived the slide... and only five made it out. **Now we took an oath, that I'm breaking now. We said we'd say it was the snow that killed the other two, but it wasn't.** Nature is lethal but it doesn't hold a candle to man. However unreal it may seem, we are connected, you and I. We're on the same curve, just on opposite ends. You don't get **sick**, I do. That's also **clear**.

[1] No?

[2] speaking of unreal...

[3] Yes, sick.

## Changes by green author

The lysine contingency - it's intended to prevent the spread of the animals is case they ever got off the island. Dr. Wu inserted a gene **tahtthat**<sup>Green</sup> makes a **single**<sup>Green</sup> faulty enzyme in protein metabolism. The animals can't manufacture the amino acid lysine. Unless **they're**<sup>Green</sup> **continually**<sup>Green</sup> supplied with lysine by us, they'll slip into a coma and die. We're on the same curve, just on opposite ends. However unreal it may seem, we are connected, you and I. You don't get **sick**, I do. That's also **clear**<sup>Green</sup>.

[Green 1] speaking of unreal...

[Green 2] Yes, sick.

## Changes by orange author with some comments

Now that we know who you are, I know who I am. **I'm not a mistake!** **It all makes sense!** In a comic, you know how you can tell who the arch-villain's going to be? **He's the exact opposite of the hero. And most times they're friends, like you and me!**<sup>OA</sup> I should've known way back when... You know why, David? They called me Mr Glass. However unreal **it may seem**, we are connected, you and I. We're on the same curve, just on opposite ends. You don't get **sick**, I do. That's also **clear**<sup>OA</sup>.

[OA 1] Yeah, I like animals better than people some-times...

[OA 2] Especially dogs. Dogs are the best.

[OA 3] just nice

[OA 4] Yes, sick.

Your bones don't break, mine do. **That's clear.** Your cells react to bacteria and viruses differently than mine. *You don't get sick, I do.* That's also clear. *But for some reason, you and I react the exact same way to water.* We swallow it too fast, we choke. *We get some in our lungs, we drown.* However unreal it may seem, we are connected, you and I. We're on the same curve, just on opposite ends. You don't get sick, I do. That's also clear.
